

July 13, 2017

Dear Province 1 Episcopal Church Women Leaders,

The attachments have information and registration for Training of Facilitators for Women of Vision and other programs. Please consider attending and Please send to your contacts. The first event is August 24-27, the second September 21-24, 2017 in Temple, New Hampshire.

In these difficult times where the divide between people seems to get worse, Episcopal women's spiritually-based leadership is greatly needed. Now that there is no Women's Ministries office at the National Church, ECW is needed to help fill that role. My seventeen years as the Director of Women in Mission and Ministry we were blessed to co-create with ECW the Women of Vision and GATES leadership program that went throughout the Anglican Communion. We learned the importance of providing this program that helped women and girls to believe themselves as leaders and to equip them with the skills and supportive network.

Nature's Way to Lead and Organize teaches facilitation skills in presenting WOV and how to start or enhance local organizations such as ECW. This will be of great help where ECW is no longer in existence or the leadership wants help with new members.

I would love to hear from you about Nature's Way to Lead and Organize, your questions, concerns, suggestions. If you have trouble opening the attachments, I will send to you in the body of the email.

Wishing you all the very best. Namaste!!! Ann Smith
